

VOCATIONAL REHABILITATION

Rocket Rehab provides vocational rehabilitation consulting services to injured or ill workers with physical or psychological conditions.

We understand the intricate assessment of an individual's transferrable skills, physical function and psychological status are pivotal in order to achieve realistic and sustainable outcomes.

We provide a structured and hands on approach to our vocational rehabilitation services, ensuring the individual remains focused whilst establishing, sourcing and managing the placement in a new vocation of interest.

SERVICES

- Initial and vocational assessments
- Rehabilitation plan development and ongoing case management
- Medical review and case conferencing
- Job seeking
- WorkCover vocational incentive scheme identification, assessment and application
- WorkTrial workplace assessments.

MEDICAL REVIEW

Our Consultants may identify a gap between an individual's current physical and psychological status and the status required for a realistic vocational goal.

Consultants will arrange a medical review with the individual and their health professionals to establish whether further treatment will achieve an increase in their capacity.

EMPLOYMENT PLACEMENT CONSULTANTS

Rocket Rehab offers access to Specialised Employment Placement Consultants for Clients needing additional job seeking assistance.

OUR EMPLOYMENT PLACEMENT CONSULTANTS DEVELOP INDIVIDUALLY TAILORED PATHWAYS TO EMPLOYMENT, HELPING CLIENTS TO SECURE AND MAINTAIN SUITABLE EMPLOYMENT.

JOB SEEKING

We provide a comprehensive job seeking program that can be completed independently with check point reviews, or as a group with weekly review sessions.

Our Vocational Consultants confirm the purpose and goals of the program with the job seeker prior to commencement.

Our Job seeking program includes:

- Module 1: Goal Setting and Seeking Suitable Employment
- Module 2: Resume and Cover Letter Development
- Module 3: Creating a SEEK account and using the computer
- Module 4: SIRA Incentive Schemes
- Module 5: Accessing the Hidden Job Market
- Module 6: Job Application Techniques
- Module 7: Interview Techniques and Interview Preparation
- Module 8: Injury Disclosure
- Module 9: Preparing for New Employment and Keeping Your Job

REVERSE MARKETER

Cold calling prospective employers often provokes anxiety for injured or ill workers.

Rocket Rehab actively remove that anxiety by employing a Reverse Marketer.

Our Reverse Marketer is responsible for cold canvassing prospective employers on behalf of injured workers.

They are solely dedicated to this role, which enables the development of a large pool of trusted contacts who are eager to use the SIRA incentives available to them for new employees.
